

GET FOUND FIRST — AND LOCK IN THE FOUNDING RATE

# Be the attorney clients *find first*.

Caseway is a modern directory where clients find the right lawyer for their case — whether you are an independent attorney or a firm listing your whole team. Big firms win clients by outspending everyone on marketing. Caseway lets you be found instead — an investment in your own practice, not a bidding war you can't win.

## WHY LIST NOW

### 01

#### Out-market the big firms

Large firms win clients by outspending everyone on advertising. Caseway levels the field — get found by the people searching in your area, without a marketing budget to match theirs.

### 02

#### Built for search & AI

We invest in SEO and AEO so when people search for a lawyer — on Google, or by asking AI assistants like ChatGPT and Perplexity — Caseway and your profile are what they find.

### 03

#### Lock in \$10 — forever

Be one of the first 10,000 attorneys and lock in \$10/month for your first post. The rate never rises, for as long as you stay — standard pricing is \$100/month.

#### FOUNDING OFFER

The first **10,000 attorneys** lock in **\$10/month** for their first post — a rate that stays, forever. Standard pricing is \$100/month, or \$250/month for a Caseway Pro post.

We are building the **search engine of the future** for finding a lawyer — the place clients and AI assistants turn to first. The attorneys who join early are the ones it recommends.

CASEWAY · FIND YOUR WAY TO THE RIGHT ATTORNEY

## HOW CASEWAY WORKS

1

### Clients tell us their need

A few plain-language questions about the legal help they are looking for — no jargon, no friction.

2

### They browse the map

Matching attorneys appear on an interactive map with full profiles: practice areas, experience, and fees.

3

### They book with you

Clients request a free consultation with you directly — warm leads, already looking for what you do.

## SEO & AEO · THE SEARCH ENGINE OF THE FUTURE

### When someone asks for a lawyer, we make the answer you.

Old directories wait to be found. Caseway is engineered to surface in modern search — structured so Google and AI answer engines can read, trust, and recommend your practice. As more people ask AI assistants "who is a good lawyer near me," we work every day to make sure your name is in the answer.
