Launch & Growth

CASEWAY — CONFIDENTIAL · THE TRUSTWORTHY WAY TO FIND A SOLO ATTORNEY NEAR YOU

A two-sided marketplace built to compound.

Caseway is a Zillow-style marketplace that connects people who need legal help with solo and independent attorneys. Clients answer two plain-language questions and browse matching lawyers on an interactive map. Attorneys list their practice for free and pay only to stay visible.

Our strategy rests on a single idea: **grow supply with zero friction, capture demand with local SEO, and convert visibility into recurring revenue.** Intake is free, so attorneys join with nothing to lose. Each new attorney expands our geographic coverage, which spins up new local landing pages, which pull in high-intent clients searching for legal help nearby. When attorneys see real clients arrive, they subscribe to stay listed and refer their peers — and the loop tightens.

Three compounding engines drive the plan: a **Founding Member offer** that fills supply fast and rewards early believers, an **attorney-to-attorney referral program** that turns tight professional networks into a growth channel, and **programmatic local SEO** that manufactures thousands of high-intent landing pages automatically as we scale.

To browse & to list —
pay only to be seen

"Free to list. Pay to be found. Every new attorney makes the next client easier to reach."

A large, fragmented market that incumbents overcharge.

Most U.S. attorneys are solo or small-firm practitioners with little marketing budget and no time for SEO or ad management. Meanwhile, people searching for a lawyer face directories that are cluttered, pay-to-win, or hard to trust. That gap is the opportunity.

The problem, both sides feel it

C For clients

Finding a lawyer is opaque and stressful, usually in a difficult moment. Legacy directories bury small practices under big-firm ad spend, jargon is everywhere, and there is no simple way to compare nearby options or judge who to trust.

A For attorneys

Getting found online is expensive and technical. SEO, ad campaigns, and directory fees eat thin solo margins, and incumbents bundle solos alongside large firms they cannot outbid. Most solos simply rely on word of mouth.

Why now

- **Underserved supply.** Solo and independent attorneys are the majority of the profession and the least served by existing legal-marketing products.
- **High-intent demand.** People searching "{practice area} attorney near me" are ready to act — the highest-converting traffic in legal.
- **Incumbent fatigue.** FindLaw, Avvo, and Justia are seen as costly and cluttered, leaving room for a clean, solo-first, transparently priced alternative.
- **A defensible wedge.** A map-first, plain-language experience purpose-built for solos is hard for generalist directories to copy without alienating their big-firm advertisers.

Two audiences, one map.

Caseway is a two-sided product. Clients are the demand we capture; attorneys are the supply we monetize. Every decision is weighed against both.

C Clients — the demand

Individuals and small businesses with a specific, local legal need.

- Searching locally, often urgently
- Family, criminal, real estate, business, estate & more
- Value trust, proximity, and a free first conversation
- Want plain language, not legal jargon

A Attorneys — the supply

Solo and independent attorneys and small firms who want more clients without the overhead.

- Price-sensitive, time-poor
- No appetite for ad management or contracts
- Want to simply be found by nearby clients
- Trust peer referrals over vendors

What each side hires Caseway to do

AUDIENCE	THE JOB TO BE DONE	HOW CASEWAY DELIVERS
Client	"Find a trustworthy local lawyer for my problem, fast."	Two questions → map of matching attorneys → book a free consult.
Attorney	"Get discovered by local clients without becoming a marketer."	Free listing → local SEO does the work → pay only to stay visible.

The trustworthy way to find a solo attorney near you.

Value proposition

For clients: Find the right local attorney in minutes — answer two questions, browse a map, book a free consultation. No jargon, no spam.

For attorneys: List free and get discovered by high-intent local clients. Pay only to stay visible — no ad management, no long contracts, starting at the price of a coffee a day.

What sets us apart

- **Solo-first**, not built around big firms
- **Map-first** discovery, like Zillow for lawyers
- **Transparent pricing** — no auctions, no hidden fees
- **Free intake**, so supply has nothing to lose

Brand at a glance

Promise

Find your way to the right attorney.

Personality

Clean, modern, minimal, trustworthy.

Voice

Plain-language, reassuring, professional.

Mark

A location pin holding the scales of justice — the place where law meets your neighborhood.

Forest green · Gold · Warm white

"Caseway should feel like the calm, credible friend who happens to know a great lawyer down the street."

The marketplace flywheel.

Liquidity is the whole game. We seed supply for free, then let local SEO and referrals turn that supply into demand, and demand into revenue and more supply.

The three compounding engines

Winning the attorneys.

Supply comes first — a directory with no lawyers helps no one. We remove every reason to say no, then give attorneys reasons to bring their peers.

Playbook

- **Free, no-risk intake.** Listing costs nothing and carries no upfront charge; attorneys pay only when they choose to go live and stay visible.
- **Founding Member urgency.** The first 10,000 attorneys lock in \$10/mo — a once-only, scarcity-driven reason to join now rather than later.
- **Peer referrals.** A built-in referral program rewards attorneys who bring colleagues with higher ranking and leaderboard status.
- **A clear upgrade path.** Three tiers let attorneys start cheap and step up to premium placement as they see returns.
- **Direct & partnership outreach.** Bar-association partnerships, CLE events, and targeted LinkedIn/email to solos seed the earliest cohorts.

! Why "pay to be seen" works

Attorneys experience value *before* they pay. A free listing plus inbound local traffic proves ROI, so the subscription feels like keeping a working channel on — not gambling on an ad.

Activation metric that matters

The key conversion is **list → subscribe**. Everything on the supply side — onboarding, the Founding offer, lead notifications — is engineered to move attorneys across that line and keep them renewing.

Winning the clients.

Client acquisition is led by organic search. We turn supply into thousands of pages that match exactly what people type when they need a lawyer — then convert that traffic with trust.

Channels & tactics

S Programmatic SEO

Auto-generated location and practice-area landing pages (100+ live and scaling) capture long-tail "near me" searches — the cheapest, highest-intent traffic in legal.

L Local & technical SEO

Structured data (JSON-LD), clean sitemaps, and a fast experience help every county, profile, and practice-area page get indexed and rank.

G Content & guides

Plain-language explainers ("how to find a divorce lawyer," "what to ask in a free consultation") build authority and capture top-of-funnel demand.

T Trust & conversion

Verification badges, a free-consultation CTA, and client reviews turn visitors into booked consultations — the metric attorneys actually pay for.

"Every attorney we add is also a marketer for us — they send their own clients to their Caseway profile."

From search to subscription.

The marketing funnel

AWARENESS

SEO, content & referrals bring clients and attorneys to Caseway.

CONSIDERATION

Map browse & profiles — compare nearby attorneys, read reviews.

CONVERSION

Book a free consult or submit a lead; attorney subscribes to go live.

RETENTION

Renewals & referrals — attorneys keep paying, clients return.

Pricing — the paid-posts model

Free to list and browse; an approved listing is publicly visible only with an active subscription. Paying buys visibility itself — predictable, recurring revenue rather than per-click auctions.

LIMITED

FOUNDING

\$10_{/mo}

Locked-in rate for the first 10,000 attorneys. Full public listing.

BASIC

\$100_{/mo}

Standard public listing for attorneys joining after the founding window.

TOP RANK

PRO

\$250_{/mo}

Public listing plus premium placement — ranked above all non-Pro attorneys.

How we know it's working.

We track the marketplace as two funnels and the loops that connect them. The north star is **paying, retained attorneys** — the proof that clients are arriving and converting.

AREA	METRIC	WHY IT MATTERS
Supply	Attorneys listed · paying · Founding seats filled	Raw inventory and how fast the scarcity offer is consumed.
Activation	List → subscribe rate	The core supply conversion — value proven, wallet opened.
Revenue	MRR · ARPU · churn	Health and durability of recurring subscription income.
Demand	Organic sessions · pages indexed	Reach of the programmatic-SEO content moat.
Conversion	Consultations & leads booked	The outcome attorneys actually pay to receive.
Loops	Referrals per referrer · SEO pages per new attorney	Whether the compounding engines are actually compounding.
Efficiency	LTV : CAC	That growth is profitable, not bought.

"If list-to-subscribe is healthy and referrals are above one per referrer, the flywheel is turning on its own."

Phasing the go-to-market.

We build the supply foundation first, switch on the demand and conversion engines next, then pour fuel on what works.

1

NOW • FOUNDATION LIVE

Build supply & the discovery experience

Map-first directory, free attorney intake, paid-posts subscription billing, programmatic SEO pages, the referral program, attorney analytics, and admin tooling — all live.

2

NEXT • TURN ON DEMAND

Capture & convert client interest

Email notifications (lead alerts & approvals), per-attorney lead capture, client reviews & ratings, and a plain-language content library to grow and convert organic traffic.

3

THEN • SCALE

Expand reach & deepen trust

Bar-association partnerships, new geographies, selective paid acquisition, conversion polish (favorites, compare, trust badges), and the mobile app.

The one-line strategy

Seed attorney supply for free, manufacture high-intent demand with local SEO, convert visibility into recurring revenue, and let referrals and content compound the whole thing.
